WATCH YOUR PROFITS BOUNCE TO AN ALL TIME HIGH WITH "CIRCUS"

"CIRCUS," the "hit" of the 1977 A.M.O.A. Show, is a one or two player skill game which requires the player to bounce a jumping clown off the proper side of a springboard, and in turn, propel another clown to the top of the screen where he can burst three colored rows of balloons.

The higher the clown jumps, the more balloons that can be burst and the greater the score that can be obtained. Yellow balloons in the lowest row are worth twenty points each, green balloons in the middle row are worth fifty points each, and blue balloons in the top row are worth one hundred points each. In addition, there is a point bonus for eliminating all the balloons in any row. When the clown bursts the last balloon in a row, he hangs there momentarily as appropriate "award music" is played. Then he jumps back down to the springboard and the row of balloons is reset. An additional bonus of an extra "jump" is provided the player whenever he bursts the entire top row of blue balloons.

"CIRCUS" can be adjusted for 3, 5, 7, or 9 "jumps" per game. As long as the clowns continue bouncing off the springboard, points are accumulated. However, the speed of the jumping clowns increase, thereby testing the skill of the player. If the clown misses the board, he tumbles and falls, and appropriate music is played.

Multiple coinage options are available on **"CIRCUS,"** and full game instructions are displayed on the screen after the player inserts his coin. The day's high score is flashed on the screen, and an optional "top this score" feature can be used, which awards a replay to the player who can beat the top score.
